

AVON & DEDISA PEAKING POWER  
RELIABLE ELECTRICITY TO SOUTH AFRICA

Avon Peaking Power (RF) (Pty) Ltd and Dedisa Peaking Power (RF) (Pty) Ltd are independent power producing project companies, with combined electricity generation capacity of 1005MW from two facilities. Avon Peaking Power (670MW) is located in Shakaskraal in KwaZulu Natal, and Dedisa Peaking Power (335MW) is located in the Coega IDZ in Port Elizabeth. Both facilities have a 15 year Power Purchase Agreement with Eskom. The facilities wish to undertake a pre-qualification expression of interest process for diesel supply contracts of up to 7 years of fuel supply.
